Mr. Badger's Speech. Last evening, in accordance with a previous announce ment. Hon. George E. Badger, one of the Electors for the State at Large on the Bell and Everett ticket, ad dressed the citizens of Wilmington in Thalian Hall. The audience was large and attentive, and Mr. Badger claimed their attention for fully three hours. We had never heard Mr. Badger before, but had heard the most extravagant laudations of his powers of oratory and argument. opinion with reference to the effort of last night. The feeling decidedly was one of disappointment. We do not that he did not make a great speech, and of course, we mon man had made that speech, it would have been we cannot say. about the dullest and most uninteresting speech that has been made here for years. We do not believe that Mr. Badger made a vote by his effort, or that any of his party thought he did. His attack upon Governor Ellis was-we leave that for people to decide for themselves. There was, all the time, a pervading consciousness on the part of Mr. Badger, that he, Mr. Badger, was per sonally present. He never seemed to forget himself-

he was always conscious of George E. Badger. Upon national politics, Mr. Badger referred to Bell and Everett. He did not refer to a little issue of veracity said to be pending between Messrs. Badger and Bell.-We hope they have fixed it all right. Have not heard of it, though.

The tin-cup and the nigger business formed the staple of his remarks on State politics. These points were better presented by our young friend Waddell last week, in the Town Hall. That, we take it, is the general impression with both parties. Upon the whole, as the United States Senatorship is the prize for which Mr. Badger is contending, we rather feel inclined to give it to Mr. Waddell. Mr. Waddell has made the best anti-Democratic speech of the two. We go for Waddell for Senator, if he is old enough, and if an oppositionist must be elected; but, upon the whole, we think, possibly, that an oppositionist will not be elected. That is a notion

#### Daily Journal, 14th inst. Speaking Last Night.

In response to the request of the Democratic Executive Committee for New Hanover county, Hon. S. J. Person addressed his fellow-citizens last night at the in reference to the proposed Military Convention, to be Town Hall, in reply to positions advanced two evenings held at Goldsboro'. The papers of the State are rebefore by Hon. George E. Badger, one of the Opposi- quested to copy the card, or take notice of it otherwise. tion Electors for the State at large.

Judge Person apologized for the effort which he made by stating that, for the last week his health had been such as to prevent his paying that attention to the subject under discussion which its importance demands, but at the same time, having been called upon by the Executive Committee of his party, he did not feel at liberty to decline. From the expressions which we heard last night, and from our own opinion of the speech, we in which Convention every District in the County was repthink that no apology was needed. We really believe that it was one of the best political addresses that Judge | • Person has ever made. We know that it reflected credit upon himself, and we cannot but believe that its effects will be beneficial to the Democratic party. Even the Opposition party accord to Judge Person the credit of having achieved a decided success, and in doing so he referred to the distinguished gentleman to whom he was replying with all the respect and courtesy due to his age, standing and character, but most assuredly he did not spare his arguments, and he did show up Mr. Pool and his inconsistencies just about as effectually as any gentleman of our acquaintance would like to be showed up; and the worst of it, for Mr. Pool, was that the Judge quoted the days and the dates, the volume and the page of the record, and made no charge that he did not so substantiate.

Judge Person's address occupied, we think, a little over an hour and a half in the delivery. Mr. Badger's inst., for the purpose of nominating candidates to represent was rather over three hours, yet it did seem to us that every point made by Mr. Badger in his three hours' sented, unanimously nominated you as a candidate for the speech was fully and successfully noticed in the comparatively brief reply of Judge Person.

The audience at the Town Hall was a large, respectable, and attentive one, though not quite as numerous, we think, as that which assembled in Thalian Hall to listen to Mr. Badger two nights before, the fact being that, apart from Mr. Badger's reputation, and the curiosity felt to hear him, which secured him an audience. his speech rather tended to keep people away from any the County was fully represented, has been received. political address soon afterwards. Its great length—its the honor which my fellow citizens have freely bestowed, by egotism-its pervading Badgerism, so worried even his a faithful and zealous devotion of my time and energies to own friends, that they had enough politics for one week, and the Democrats came to the conclusion that if that was the best talk that could be made on the opposition side, a reply was hardly needed. Nobody was hurt on our side, however the other side may have felt.

The Opposition are doing everything they can to defeat Gov. Ellis, and we have much to fear from too much confidence on the part of Democrats. Democrats should be urged to turn out and work, and not trust to past majorities.

The above which we copy from the Fayetteville Courier is unfortunately too true. It will not do for Democrats to rely too implicitly upon past majorities, nor indeed will it do for any party to pursue such course. No party is strong enough to neglect the means of success; but we are pleased to find that the Democrats in this and the other counties of the Cape Fear district, are beginning to be fully aroused—that they are bringing out their ablest and strongest men, and that the anathy with which our party has been chargeable, is passing away. So far as we can find now, the prospects are, that instead of losing, we will most probably gain votes, and, certainly, the longer the canvass is protracted, and the fuller discussion we have of the issues pending between the parties, the better will be the result for the Democratic

### The Question of Texation.

We have heretofore stated and shown that no Southern State that taxes slaves according to value at the same time taxes all other property, as proposed by the Opposition platform. This is true of Louisiana, Georgia, Alabama, Arkansas, Texas and Florida. All these drews, Greensboro'. resented, unanimously nominated you as a candidate for the States discriminate in their tax bills, and then exempt a large amount of property entirely from taxation. It seems she left home on Wednesday cure Liver Complaints, Billions and went to the house of Barnes where she was dressed in man's clothes and passed off for a man, being called by a fictitious name.

On Friday this man (woman) was seen in company with Barnes going to Lumberton, and that was the last seen of her alive. On Saturday night late or early Sabbath morning Barnes was seen in the vicinity of Lumber River under suspicious circumstances, and the fact being known that she had accompanied him was sufficient to fasten suspicion upon him after her body was found in the river. Williams is clear of the murder, from the fact that he was lodged in jail on Thursday and the woman was seen alive on Friday. It is supposed that she had about \$2,000 in her possession. There is another Barnes arrested as implicated in the murder. Fauetteville Carolinian, 15th inst.

Hon. Bedford Brown.-The Brooklyn Daily Eagle tive Cathartic which the of a recent date contains the following allusion to Col.

Brown of this State: "The South offers many candidates for the Vice Presidency of whom she may well be proud. North Carolina offers a noble monument of the proudest days of Democratic ascendency in the person of the Hon. on different portions of the bowels. Bedford Brown, the incorruptable Senator throughout the time of Jackson and Van Buren. A more upright and honest man never walked upon the floor of the which act alike on every part of the alin Senate than Bedford Brown. His motives were never nal, and are good and safe for a moment suspected of selfishness during the long | tic is needed, such as Determs of service through the model Administrations of Jackson and Van Buren. Other Gentlemen of equal ability but of less experience present themselves in the in a long course of Fever, persons of Stephens, Davis, Johnson and others. From ing Sensation of Cold over such a galaxy of political worth and brilliancy, the Convention at Baltimore cannot tail to make a selection that will command the support of every true Democrat to which flesh is heir, too and national conservative man throughout the entire advertisement. A QUESTION OF INTERNATIONAL LAW.—The Key West (Fla.) Key of the Gulf, speaking of the French bark captured recently by Lieutenant Maffit, in the Crusader, says that she was captured within three miles of the coast of Cuba, and therefore within Spanish jurisdiction, and that the Spanish consul, at Key West, has signified his intention to enter a protest against the seizure or subsequent confiscation.

THE APPROACHING HARVEST .- The wheat crop is just maturing, and in many parts of this country, par- proved hemmer will turn a hem of any width, stitched ticularly at the South, harvest is in progress. At isolated points all through the Northwest harvesting has proved nemmer will turn a nem of any width, stitcing the same time without any previous basting.

We warrant these Machines to be just what we have commenced, so that the extent of the crop will be soon present, and we guarantee to refund the money to an known. After a thorough examination of the newspaers, the conclusion is unavoidable that the forthcoming harvest will be one of the most abundant ever gathered, given. taking the country as a whole. Virginia and parts of Georgia, North and South Carolina, appear to be the least favored ; but even in those States, after weighing the many conflicting accounts given, we should not be surprised if the yield is up to a fair average-unless we except Virginia, which has suffered severely from insects.-N.
